Director of Communications

Proposed OTR Use

25X1A6D

REF: Memorandum from the Director of Training to the Director of Communications, dated 29 April 1958, same subject

25X1A6D While I concur in the use by OTR of the [] for the purpose stated in the reference, I would like to comment as follows:

a. In recognition of the primary mission of [] the scheduling of the facilities for Operation Alert must be given priority over any other use. Of course, in the event that unscheduled activation of [] for a true "alert" is necessary, the use of all [] facilities will be devoted completely to the primary mission. Sheltered storage space may not be available for your equipment under these conditions.

25X1A6D

25X1A6D

25X1

25X1A6D b. There has been an increase in the use of [] for Agency conferences. This use is expected to expand in the future. Since most of the major conferences that use [] as an assembly room are planned for the spring of each year, it will be appreciated if you consider this when arranging your shooting schedules in order that maximum use of the facility may be obtained.
